

Semi-Automatic Horizontal Saws

ProStar® PRSBS20SADM Double Miter Bandsaw

Extremely Fast, Accurate Cutting

The PRSBS20SADM semi-automatic saw offers a heavy-duty infeed table and outfeed table. This band saw can be adjusted to miter from zero degrees to 60 degrees in seconds. The saw cutting head swivels, while the vise and base remain stationary.

One advantage of the saw is how user-friendly it is. This design has evolved for over 20 years into the ideal metal-cutting machine.

13 IN. × 18 IN. RECTANGULAR CAPACITY

- 220 V or 440 V 3-phase models
- 13 in. round capacity at 90°
- Miters 45° left and 60° right
- 1.25 in. blade width
- Variable speed: 69 to 306 fpm

SPECIFICATIONS	PRSBS20SADM
CAPACITY	13 in. × 18/13 in. × 10.6/12.4 in. × 7.7 in. at 90°, rectangular 13 in. × 12 in. × 8.5 in. at 90/45/60° in. round 13 in. × 12 in. × 8.5 in. at 90/45/60° in. square
RETURN	Hydraulic
MITER ADJUSTMENT	Dual miter swivel head
MITER ANGLE	0-60°, 45°L
MOTOR	3 hp
BLADE GUIDE	Carbide/roller
TABLE HEIGHT	30.5 in.
BLADE SPEED (fpm)	60-306 inverter driven
DECENT CONTROL	Pressure-assist hydraulic
DRIVE	Inverter direct
POWER REQUIREMENTS	220 V or 440 V 3-ph 440 V (available option)
SHIPPING WEIGHT	2,156 lbs.
SHIPPING DIMENSIONS	88.6 in. × 33.5 in. × 61.4 in. (L/W/H)
WEIGHT	2,300 lbs.
