

## 2020 Fall Specials:

<b>Index</b>	Miller	P2, P7	Abicor/Binzel	P5	ProStar Safety	P8
	Hypertherm	P3	United Abrasives	P6	ProStar Abrasives	P9
	Lincoln	P4	Western	P7	Lancer™ Systems P10, P11	

Starting at about \$6,000

### ProStar™ Portable Fume Collector

The ProStar Portable Fume Collector provides MERV 11, MERV 15 and E11 PTFE washable filter options that are suitable for a variety of materials and feature a 1200 CFM airflow.

**PROSTAR**  
by Praxair

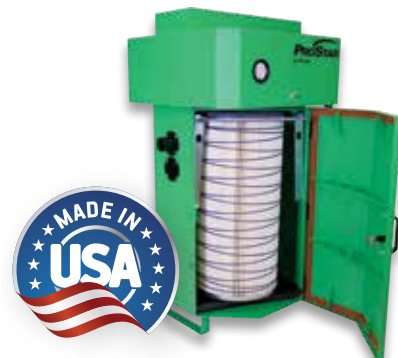

Starting at about \$3,000

### Portable 'Lite' Fume Collector

The ProStar Portable "Lite" Fume Collector is a lower cost, entry level machine featuring MERV 11 and MERV 15 disposable filter options for a variety of materials, a 100% duty cycle and an 875 CFM airflow.

Praxair sells and distributes  
**AMERICAN-MADE PRODUCTS**  
from your favorite  
manufacturers, just like these.

Starting at about \$4,000

### ProStar™ Tip Extraction Collector

The ProStar Tip Extraction Collector (TEC) delivers greater than 95% collection efficiency for in position welds in accordance to the AWS F1-2 standard. It features a washable E11 rated PTFE filter.

For more information, visit: [praxairusa.com/fall2020/fume](http://praxairusa.com/fall2020/fume)

#### Features:

- Preassembled fume arm for easy setup
- Multiple filter options for use on carbon, stainless, galvanized steels and aluminum
- 1200 CFM airflow from the 1.5 HP motor

#### Features:

- Preassembled fume arm for easy setup
- Multiple filter options for use on carbon steel, galvanized steel and aluminum
- 875 CFM airflow from the 1 HP motor

#### Features:

- Preassembled fume arm for easy setup
- Multiple filter options for use on carbon, stainless, galvanized steels and aluminum
- 1200 CFM airflow from the 1.5 HP motor

# NEW MULTIMATIC® 235

## Get More Jobs Done

Do more with less. Introducing one machine that can handle all of your MIG, stick and DC TIG welds without sacrificing weld output and quality. It's the new Multimatic® 235.

907780	Machine only	\$2,199 MSP
951846	Machine with running gear	\$2,499 MSP
951847	Machine with dual cylinder/TIG kit	\$2,899 MSP

Order now at [praxairusa.com/fall2020/mm235](http://praxairusa.com/fall2020/mm235)

Generate 4,000,000 cubic feet of nitrogen  
per year or more, every year,  
for as little as \$2500 per month.

- Industrial grade nitrogen
- Simple design and easy installation
- Footprint of 10 x 10
- Less than 22 kW input power

Learn more about nitrogen generators.

# Simplify Pipe Processing, Improve Productivity

## Introducing the NEW ProStar™ Lancer™ Pipe Cutting Machine.

Praxair debuted the new *Lancer* PRS SETLP8-12 Pipe Cutting Machine at ConExpo 2020. The new *Lancer* Pipe Cutting Machine is an affordably priced, entry-level automated pipe cutting system that empowers users to cut up to 8-inch diameter pipe and up to 4-inch square tubing in sections up to 25 feet. Additionally, the *Lancer* Pipe Cutting Machine has an optional fume extraction system that provides exceptional performance on mild steel, galvanized steel, galvanized steel and stainless steel.

The *Lancer* Pipe Cutting Machine from Praxair makes pipe cutting automation accessible to virtually any fabricator. As a new addition to Praxair's *ProStar* line of CNC cutting machines, this machine provides the performance you expect and is supported by Praxair's network of CNC cutting system specialists, providing you with a reliable solution for improved productivity.

Features	Benefits
Unitized frame	Easy to deploy and relocate to meet evolving needs
Available Hypertherm POWERMAX plasma systems	Exceptional cut quality – reduce time spent grinding
FlashCut CNC controller	Operator ease of use with CAD/CAM capability
Pierce cutting capacity	Up to 7/8 in.
Optional manual bevel station	Simplify weld prep and fit-up

### Capacity:

- Cut up to 8 in. diameter pipe
- Cut up to 5 in. square and rectangular tubing
- Process lengths up to 25 ft. long
- Pierce cutting capacity up to 7/8 in.

For more information, visit [praxairusa.com/fall2020/pipe](http://praxairusa.com/fall2020/pipe).

PRS4 CNC Cutting System

**STARTING AT  
JUST UNDER  
\$23,000**

PRS51 CNC Cutting System

## ProStar Lancer Series CNC Cutting Systems make productivity gains easy to deploy and affordable.

With effective cut dimensions from 4 ft. x 4 ft. up to 6 ft. x 12 ft., Praxair's *Lancer* Series CNC Plasma Cutting Systems provide the ability to efficiently process carbon steel, stainless steel plate, and more. These machines feature full support for Hypertherm® plasma systems, and FlashCut CNC controllers for fast cutting speeds, optimal nesting, exceptional cut quality and ease of use.

The *Lancer* CNC Cutting Systems are affordable and require minimal setup. They offer premium features including 100% welded unitized frames that are forklift accessible, making them easy to deploy or move as facility needs evolve.

Features	Benefits
4 ft. x 4 ft. to 6 ft. x 12 ft. effective cut area	Process various carbon and stainless steel in up to 6 ft. x 12 ft. sheets
100% welded unitized frames	Easy to deploy and move as needs evolve
Hypertherm plasma and oxy-fuel compatible	Excellent cut quality and reduced grinding
Flash Cut CNC controller	Easy setup, operation and nesting (CAD/CAM capable)

Cutting Capacity	
PRS4	4 ft. x 4 ft.
PRS8	4 ft. x 8 ft.
PRS48	4 ft. x 8 ft.
PRS51	5 ft. x 10 ft.
PRS62	6 ft. x 12 ft.
